

## 4-PORT USB KVM SWITCH

Share one monitor, USB keyboard, and USB mouse between up to four computers

The select button and keyboard hot keys provide instantaneous switching between multiple computers

Supports high video resolutions up to 2048x1536

### SAVE MONEY, SAVE SPACE

The D-Link 4-Port KVM Switch (DKVM-4U) allows you to control up to 4 PCs using one monitor, USB keyboard and USB mouse. It is ideal for anyone who has to work with more than one computer to eliminate the need for additional monitors, keyboards and mice, saving the money and freeing up the desktop space.

### EASY ACCESS AND CONTROL

Instantly switch between multiple computers with a keyboard hotkey or the select button. The front panel LED indicators display your computer status so you can easily determine which computer is active. With the Autoscan function, the D-Link DKVM-4U KVM switch automatically switches between computers at 10-second intervals for operation-free computer monitoring. Features mouse and keyboard emulation to ensure error free booting.

### CONVENIENT FEATURES

The D-Link DKVM-4U KVM switch supports up to 2048 x 1536 video resolution. Hot-plug compliant allows you to add or disconnect computers without turning your PC off. The DKVM-4U comes with two sets of 6-ft. KVM cables and requires no drivers to install. Versatile, portable, and convenient, the D-Link 4-Port USB KVM Switch (DKVM-4U) can be easily integrated into your multiple computer workspace at home or in the office.
