

Extend the range of your existing wireless network

Easy setup with the touch of a button

Delivering up to 300Mbps wireless performance

Wireless Range Extender

Product Highlights

Ideal for hard to reach locations – basements, upstairs bedrooms and outdoor areas

Universally works with any wireless router brand⁵

Ideal for mobile device connections – reduce 3G/4G mobile data usage by connecting to your home Wi-Fi

Effortlessly extend coverage of your home network

The Wireless Range Extender (DAP-1320) extends your existing wireless network coverage with the push of a button, delivering up to 300Mbps for whole-home coverage. Ideal for hard-to-reach areas like basements, upstairs bedrooms or outdoor areas, the compact Wireless Range Extender gives you performance where you need it most.

Why D-Link Wireless N Is Better

This Wireless N Range Extender uses Wireless N technology with multiple intelligent antennas to maximize the speed and range of your wireless signal to significantly outperform previous-generation Wireless G devices¹. The antennas make use of your home's environment by bouncing multiple wireless signals off walls and ceilings to work around obstructions and help eliminate dead spots.

Extend your network to cover hard-to-reach areas of your home

Place the Wireless Range Extender (DAP-1320) between your wireless router and your wireless devices to create wall-to-wall coverage while eliminating dead zones

Easy Push Button Setup

Step 1:

Press the WPS button on your router.

Step 2:

Press and hold WPS button on Wireless Range Extender until the LED indicator start flashing and then release.

Step 3:

You're successfully connected!

Package Contents

- Wireless Range Extender (DAP-1320)
- Quick Install Guide⁴
- Wi-Fi Configuration Note

Web Browser Setup Requirements

- Internet Explorer v6 or higher, Mozilla Firefox, Google chrome or Safari

Features

- IEEE 802.11n and 802.11g Compliant
- Extend Internet access for wireless devices such as laptops, Smartphones, tablets and more
- Supports Secure Wireless Encryption Using WPA™ or WPA2™ Security
- Wi-Fi Protected Setup™ (WPS) Push Button
- 24/7 Basic Installation Support²
- 1-Year Limited Warranty³

Works with any Wi-Fi device⁵

DAP-1320 Wireless Range Extender

Technical Specifications

Standards

- IEEE 802.11n
- IEEE 802.11g

Antenna Type

- 2 Internal Antennas

Security

- Wi-Fi Protected Access (WPA, WPA2)[®]
- Wi-Fi Protected Setup™ (WPS)

Device Management

- Web UI
- Internet Explorer® v6 or higher
- Mozilla® Firefox®
- Google Chrome
- Safari

LEDs

- Power/Status

Certifications

- FCC
- Wi-Fi[®]

Dimensions

- 1.89" x 1.65" x 2.11"
(4.8 x 4.19 x 5.36 cm)

Weight

- 0.152 lb (68.94g)

Warranty

- 1-Year Limited³

¹ Maximum wireless signal rate derived from IEEE Standard 802.11g and 802.11n specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors will adversely affect wireless signal range. Wireless range and speed rates are D-Link RELATIVE performance measurements based on the wireless range and speed rates of a standard Wireless G product from D-Link. Maximum throughput based on D-Link 802.11n devices.

² 24/7 Basic Installation Support is available only in the USA for the first 30 days from date of original purchase.

³ 1-Year Limited Warranty available only in the U.S.A and Canada.

⁴ Latest software and documentation are available at <http://support.dlink.com>.

⁵ Compliant with IEEE 802.11g/n wireless Router/AP.
